### **The Advocacy Circle NYC Vision Statement**

The Advocacy Circle (TAC) is a new organization determined to spark conversation about activism in our communities across NYC by encouraging young people to mobilize for human rights and engage in social, educational, and volunteer opportunities. We are committed to providing clear and unbiased educational opportunities and to being a nonpartisan organization that seeks to foster informed civic participation among Gen Z and Millennials, especially those who have not previously engaged in political discourse.

Each month, TAC focuses on a specific topic and strives to provide valuable information from expert sources to motivate social change on a local and national level. These topics include, but are not limited to: healthcare, immigration, climate change, LGBTQ+ rights, women's rights, economic & foreign policy, the media & AI, and humanitarian aid. Though in the nascent stages of development, TAC is committed to bridging divides in our political systems, uniting young adults through our three pillars:

#### **Educate**

Provide educational events that inspire informed conversations regarding politics by hosting panels, seminars, conversation circles, and community-building activities.

#### **Advocate**

Encourage Gen-Z and Millennial populations with diverse backgrounds to engage in civil exchanges of culture and knowledge, creating a safe space to advocate for and discuss key ideas regarding local, national, and foreign politics.

#### **Support**

Create opportunities to volunteer with local human rights organizations and nonprofits, directly supporting those impacted by intersectional discrimination and harmful legislation.

The Advocacy Circle NYC is entirely volunteer-based, fueled by the vision of uniting citizens through political literacy. We believe that by fostering critical thinking and encouraging community involvement, we can empower individuals to make informed decisions and actively participate in shaping their future. We look forward to working with you!

Sincerely,

Mads Menoher

Founder & Executive Director
